Dear Ms Luong,

**Re: Gas Internal Instantaneous Water Heaters
– addition of products for New Zealand
AGA Application 14123, AGA Certificate 7533**

Further to our letter dated 29 May 2013, we have since received updated specifications and instruction documentation relating to the product mentioned above. I also acknowledge receipt of replacement SAI Global (Enertech) report 4286, which has been issued for correction of appliance model number references.

The updated documentation is satisfactory and I now advise the customary Final Inspection has been waived in this instance. As such all work for this project is now complete and I am pleased to enclose the following:

- Revised AGA Certificate 7533.
- Revised Appliance Specification Issue 06.
- Details of the certification entry as it will appear in the "Directory of AGA Certified Products", as found on our website www.aga.asn.au.
- Invoice covering our Certification fees.

Please review the enclosed documentation and advise if any details are incorrect or inadequate.

Yours sincerely,

Bernard Croxford
Senior Engineer
