SHOW YOUR FLAIR

FLARE

Your home reflects your sense of style and individuality so the fire that you put at the heart of it should too. Designed for medium-sized spaces, the Flare stands apart from other fires and makes a statement all of its own.

- ◆ Clean air approved (except in 0.7 zones)
- ◆ Three colour options: Red Brown, Metallic Brown, Charcoal
- ◆ Three base options: Pedestal, Legs and Wood Box
- ◆ Water heating option (wetback)

LOW PROFILE FLOOR PROTECTORS

A range of attractive steel floor protectors are available to suit certain Woodsman models, offering you an easy and safe solution for your installation needs.

- ◆ Easy-clean powder-coated finish
- ◆ Wall or Corner options
- ◆ Available in Black and Charcoal
- ◆ Stub-proof design
- ◆ 4mm finished thickness

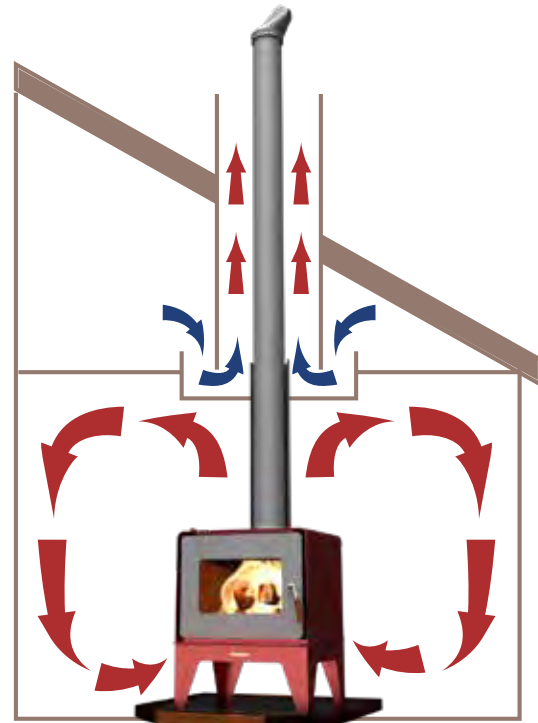

HIGH EFFICIENCY

HEATSAVER™ FLUE SYSTEM

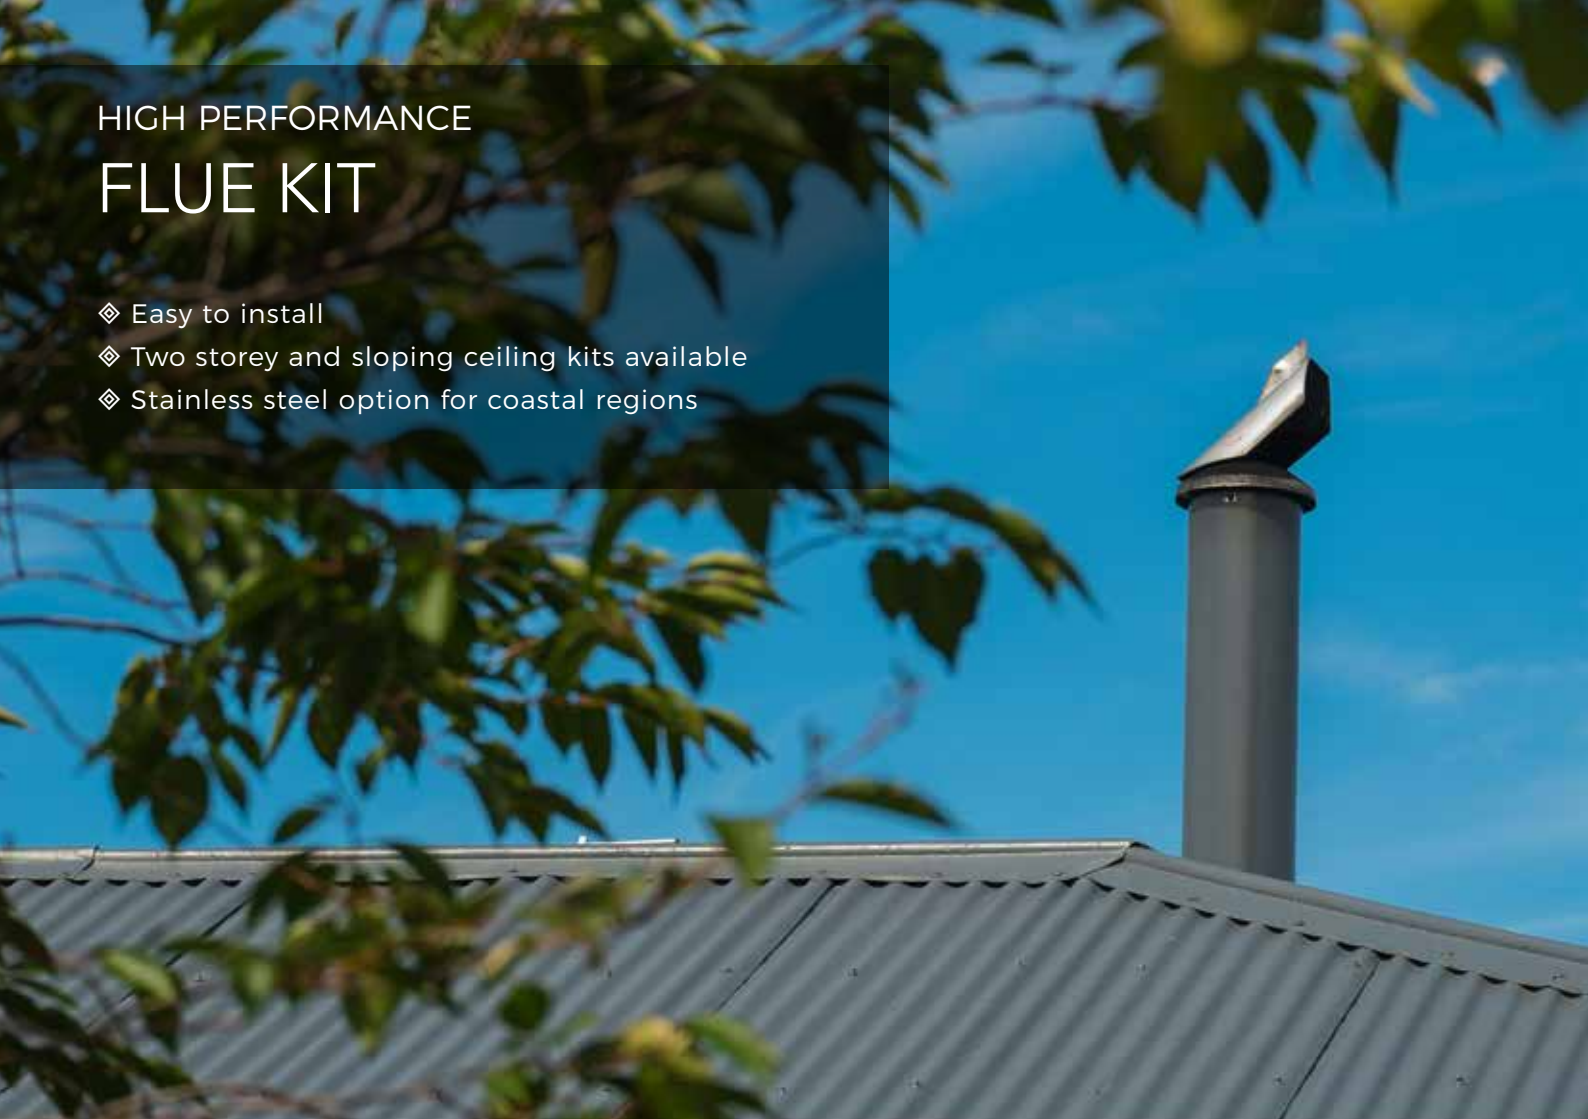

The HeatSaver™ Flue System allows you to heat your home more efficiently by retaining the heat inside your home. The system draws its cooling air from either inside the ceiling cavity or outside the home, thereby retaining precious warmth.

Insist on a Heatsaver™ Flue System with your new Woodsman fire and enjoy increased warmth through greater efficiency.

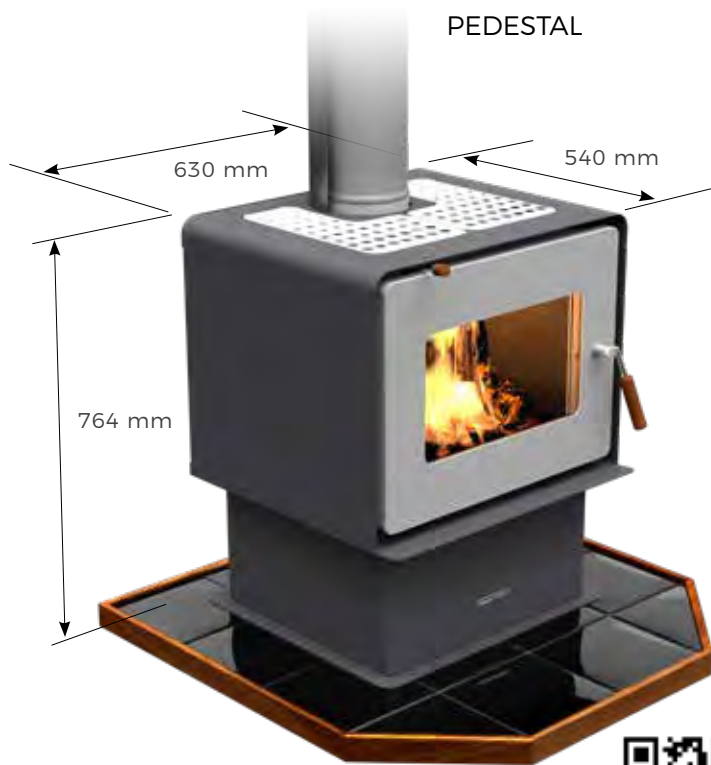

HIGH PERFORMANCE FLUE KIT

- ◆ Easy to install
- ◆ Two storey and sloping ceiling kits available
- ◆ Stainless steel option for coastal regions
